TERMS AND CONDITIONS

1. APPOINTMENT OF CHANNEL PARTNER

1.1 General. iPass will make the Service available to Channel Partner in exchange for the fees referenced in the Exhibits attached hereto and incorporated herein by reference. Channel Partner may order Services using an iPass approved order form available via the iPass Portal. Each order form must reference this Agreement and each order form shall merge and incorporate the terms herein. Each order form is a separate and distinct contractual obligation.

1.2 Grant of Authority. iPass grants to Channel Partner a nonexclusive, terminable right to: (i) access and otherwise use the Licensed Software, and iPass Marks as provided in **Exhibit F** solely in furtherance of this Agreement and not for other internal business purposes, (ii) sell or re-license the Licensed Software, Documentation and Services to Business Entities and End Users, and (iii) install and execute the Server Software on up to three (3) designated servers and one backup server for Channel Partner and for each End User. Channel Partner accepts iPass as the exclusive provider to Channel Partner for all services of the nature of the Services. In no event may Channel Partner resell or otherwise provide the Service to any third party for purposes of further "down channel" resale of the Services, absent iPass' notice and consent. The license granted under this Section 1.2 does not include a license or other right to use the iPass domain name and does not include the right to use the trademark or trade name of any iPass supplier or partner.

1.3 Software Delivery iPass will provide the Licensed Software to Channel Partner electronically via the iPass Portal, an iPass FTP website or on-line app store.

1.4 Account and Password Information. iPass will assign to Channel Partner a unique password and identification code used to access the Channel Partner section of the iPass Portal. Channel Partner may not transfer or share this account information with any third party. Channel Partner is solely responsible for assigning user names and passwords ("Credentials") to End Users so that End Users may access the iPass Portal and for imposing reasonable limitations on the disclosure of such Credentials.

2. CHANNEL PARTNER RESPONSIBILITIES

2.1 General. Channel Partner will use its reasonable endeavours cooperate with iPass and assist with the implementation of this Agreement and performance of the Services. Prior to deployment of the Licensed Software in a production environment, Channel Partner agrees to implement processes that will allow the Licensed Software to successfully report as specified in the Documentation. If Channel Partner fails to implement such processes within a reasonable time following iPass' request, iPass may elect to terminate the Agreement or Channel Partner's use of the Licensed Software upon written notice to Channel Partner. In such an event, Channel Partner shall be responsible for payment of all undisputed amounts due and owing to iPass under the Agreement. In addition, Channel Partner agrees to ensure that prior to deployment of the Licensed Software in a Business Entity production environment, each Business Entity implements processes that will allow the Licensed Software to successfully report as specified in the Documentation. If Channel Partner's Business Entity fails to implement such processes within a reasonable time following iPass' or Channel Partner's request, iPass may elect to terminate the order for such Business Entity upon written notice to Channel Partner. In such an event, Channel Partner shall be responsible for payment of all undisputed amounts due and owing to iPass under the Agreement.

2.2 Acceptable Use Policy. Channel Partner agrees that it will not (and will not permit Business Entities) to use the Service in a manner contrary to the iPass acceptable use policy located at http://www3.ipass.com/wp-content/uploads/2010/01/Acceptable-Use-Policy.pdf/, and incorporated herein by reference.
